- Learns Ucano's daily routine, makes cloaking device, kidnaps Ucano and blows up tower to use as an excuse for change in appearance
- Forges hierarchy statement saying that the Director of Sciences takes the throne since emperor passed away and princess was too young to rule
 - Council doesn't like the idea of him ruling, one says that Ucano (Eggman) shouldn't make any public appearances due to him not being of their kind
 - He gets executed/deported(?) (Eggman: "he didn't last long")
- Makes a bunch of new laws that make basically anything illegal
 - Crime rate decreases (because everyone is either arrested or gone)

- Sonic saves the Empire
 - Dr. Ucano and Gerem assist in evacuating citizens
 - Ucano tells Sonic to disable the cores to weaken Eggman's monstrosity
 - Sonic shuts down the cores to weaken magnetic liquid Eggman thing
 - Sonic proceeds to enter the now-empty city to get to the top of the Empire
 - Sonic destroys Eggman's thing, then fights Metal Sonic robot thing and defeats it
